

## Stats

Connor Price

Oh, who is this dude, man?  
Who the—who the heck is this Connor Price dude, man?

Yeah, got it from the top, don't know how to stop  
Foot is only on the gas, uh  
"Why'd he have to drop? He already dropped"  
Everybody gettin' lapped, uh  
He been doin' it, they just cluein' in  
Go ahead and check the stats, yeah  
Numbers goin', it's a fact, yeah  
Go ahead and check the stats

Yeah, I found a glitch in the code  
Exploit that, now I glisten in gold  
Split blueprints like I listen to Hov  
And the flow gotta hiss like it's hittin' the stove  
Tss, damn, kid's kinda cold  
One-man ship so I sink with the boat if it goes  
But we all know that it won't  
Don't ride waves, just go with the flow  
I don't need a gimmick, I don't need a trend  
I don't need your little cosign  
Still I went and did it, everybody listen  
Did it all in like no time  
Look, this is not up for debate, nah  
I know that they love to hate, yeah  
Feelin' like they doin' somethin'  
But they never movin', they runnin' in place  
If I make a hit, then I'm gunnin' for first  
Like I'm runnin' the bases, stuck in the Matrix  
I know that I had to break it  
I see the code every time that the bass hits  
I gave 'em back to back to back  
Three tracks, three days, and this a vacation, ooh  
I play the cards I was dealt  
Lucky for me, it's a couple of aces  
Soon as the pandemic hit  
I saw my opening, I went and chased it  
You did not take it, that's opportunity wasted  
Masks are off, now you gotta face it

Got it from the top, don't know how to stop  
Foot is only on the gas, uh  
"Why'd he have to drop? He already dropped"  
Everybody gettin' lapped, uh  
He been doin' it, they just cluein' in  
Go ahead and check the stats, yeah  
Numbers goin', it's a fact, yeah

Go ahead and check the stats on it  
No brakes, just gas on it  
Get ideas and I act on it  
Overthinkin' was a bad habit  
I should probably teach a class on it  
Wax on, wax off it  
Trust the process, that's honestly the reason  
Why I changed tax brackets this year

I did everything I want like, "What's after next?"  
It don't matter what it cost, I'll cut out the check  
Even if I take a loss, I'll come back the best  
I'ma hit 'em with a bomb like Funkmaster Flex  
Everybody wanna talk, no one wanna put in the hard work  
You want a shortcut? Get a buzz cut, buddy  
Fifteen minutes up, tough luck, buddy  
Come on, look at how they roughed up Cudi  
You got the nerve to think that your verse should get heard?  
Huh, don't be stuck up, buddy  
Go to work and don't rush that study  
Know your work before you touch that money  
Look, I need to shoutout Breanna and Nic  
I was thinkin' 'bout abandonin' ship  
I had the candle and wick  
They lit the flame, my family lit

Woo, yeah, got it from the top, don't know how to stop  
Foot is only on the gas, uh  
"Why'd he have to drop? He already dropped"  
Everybody gettin' lapped, uh  
He been doin' it, they just cluein' in  
Go ahead and check the stats, yeah  
Numbers goin', it's a fact, yeah  
Go ahead and check the st-

Like, bro, this man right here, bro? He the problem!
