

Lighthouse

Conor Maynard

I still remember when love wasn't made for fun
I chased your heart like an outlaw on the run
Woah-oh-oh, woah-oh-oh
The way your hand was the perfect size for mine
We are the victims, the criminal was time
You know-oh-oh, you know-oh-oh
The stars are dying out and we're in the dark

If our love started burning brighter than a lighthouse
Would you shine for me again?
Cause I would set my heart on fire
If it helps you find your way to me again

I remember when nothing was the same
Close my eyes and the colors start to fade
They start to fade, they all turn gray
I miss running my fingers through your head
When I reach out my hand, you're just not there
Cause you walked away and I wish you'd stay
The stars are dying out and we're in the dark

If our love started burning brighter than a lighthouse
Would you shine for me again?
Cause I would set my heart on fire
If it helps you find your way to me again

If our love started burning brighter than a lighthouse
Would you shine for me again?

If our love started burning brighter than a lighthouse
Would you shine for me again?
Cause I would set my heart on fire
If it helps you find your way to me again

I still remember when love wasn't made for fun
I chased your heart like an outlaw on the run
Woah-oh-oh, woah-oh-oh
