

Masterpiece

Conor Maynard

It was perfect how we had it couple years ago
Knew we'd found something amazing but we took it slow
But not everything will go how you want it to go
And all the things that made it worth started getting old
And my mum was always happy when I brought you home
I can't find the heart to tell her so she doesn't know
She'll probably text you on your birthday 'cause she can't let
go
Like I can't let go
And now I wanna know

Are we letting go when we've got no good reason?
Anything worth fighting for is never easy
You can't say "I'd die for you" without the bleeding
And all my friends they can't believe that we're not speaking

Why we giving up? 'Cause they're all asking me
Do you really think this should be happening?
Wish that we were leaving a catastrophe
Why'd it have to be
Such a masterpiece?

I'm scared to think of how we'll be a couple years from now
What if I'm a mess and you've got it all figured out?
Cause I can't bring myself to sit near your side of the couch
And though I haven't moved it's like I'm in a different house
And my brother always thought we'd never work it out
I know we always said he don't know what he's talking bout
But I got no one else that answers when I'm reaching out
When I'm having doubts
Like we're having now

Are we letting go when we've got no good reason?
Anything worth fighting for is never easy
You can't say "I'd die for you" without the bleeding
And all my friends they can't believe that we're not speaking

Why we giving up? 'Cause they're all asking me
Do you really think this should be happening?
Wish that we were leaving a catastrophe
Why'd it have to be
Such a masterpiece?
