

Take me back
To when we were younger
Driving down eighty-five
You were perfect
I was standing in your sunroof
Running away from our lives when
You said you didn't have a single care in the world
And I felt invincible back when I was, when I was your girl

I miss the way we felt alive
And I'd do anything
'Cause we moved at the speed of light
Before you took everything
And if you only knew, oh
I miss the way you saw through
Like I was the only girl in the room
The only girl in the room

We could talk for hours and hours
About nothing at all
Dancing in the dark and screaming up at the stars
At the top of our lungs, and
I loved the way you helped me conquer my fears
Before the scars chipped away
And after all of these years, I still

I miss the way we felt alive
And I'd do anything
'Cause we moved at the speed of light
Before you took everything
And if you only knew, oh
I miss the way you saw through
Like I was the only girl in the room

Before your walls went up
I'd hang on every word you said
Back when we were enough
And now all I see is darkness
When I was the light and you were the thunder
And I held you up and you pulled me under
Where did you go?

I miss the way we felt alive
And I'd do anything
'Cause we moved at the speed of light
Before you took everything
And if you only knew, oh
I miss the way you saw through
Like I was the only girl in the room

Only girl in the
Only girl in the
Only girl in the
The only girl in the room, oh
Only girl in the
Only girl in the
Only girl in the
