

# I'm Flying Back

Conquest

Clouds, the snow and steam above  
I can't see the way to go  
It's so cold, my life is fading out  
I scream but I can't hear my shout

When I've died I've seen the light  
Shining through the endless night  
I've seen the flames, chain on my neck  
I don't want this. I'm flying back

Way of saint is always hard  
It's a tune inside my heart  
Take my hand, let legend come alive  
You'll see the man who has survived

[Chorus.]
