

# Revolution

Conquest

Wings of fear are rising  
From the red horizon  
Evils getting closer  
Wind is stronger

Power of the nightmares  
Tries to break survivors  
Bringing fear in their minds  
And their brave hearts

Crows hide the sky light  
Tempest comes from the north side  
And the only wish is  
To stop it

That's the way you're feeling  
Cause this time is killing  
Your soul  
Your dreams  
This is not your story  
So you have to hurry  
Change your life

Come break through the night  
Listen, don't forsake what you need to find  
Wake up in your mind  
Wisdom of past times  
Your ancestors strived

Break the chains of sleep  
Catch of ignorance you've trapped so deep  
Join this renaissance  
A new real life  
Revolution is in your mind

All the words you're saying  
All the games you're playing  
Strain you  
Kill you  
This is not your story  
So you have to hurry  
Change your life

Come break through the night  
Listen, don't forsake what you need to find  
Wake up in your mind  
Wisdom of past times  
Revolution is in your mind
