

Come Clean

Conrad Sewell

I've been sinking I've seen all the cities lows
Four day weekends ain't so good when your alone.
I'm tripping off me and you now
I'm rolling on a whole new High.
Sounds crazy but you changed me somehow, baby your giving me ne
w blood

You make me wanna come clean
Put down the booze and the cocaine
Show you my ghost and my heartaches
Cause even a fool Can change.
You make me wanna come clean
Shake of the haze and the Numbness
Turn off the voices in my head
Till only the good remains

I've been thinking
Makes me cringe cause I wasted time
Your a Vision
It's so clear
With a sober mind

I'm tripping off me and you now
I'm rolling on a whole new High.
Sounds crazy but you changed me somehow, baby your giving me ne
w blood

You make me wanna come clean
Put down the booze and the cocaine
Show you my ghost and my heartaches
Cause even a fool Can change.
You make me wanna come clean
Shake of the haze and the Numbness
Turn off the voices in my head
Till only the good remains

Said I know we've been through hell and back and I dragged you
along the way
But you stayed strong and pulled me back so I need you to hear
me say
