

Different Kind Of Love

Conrad Sewell

How did we end up here
With our eyes filled with tears
Can't we love like we're young again
Only you know the shit we've been through
We survived hand in hand and will dance again

You're the missing link in my chain
Even when it drives me insane
And I wouldn't change a thing about that
You're the beat that makes my heart skip
And you never let me forget
I wouldn't have it any other way

I know we're gonna make it
As long as we're together
We got a different kind of love
You know we got a different kind of love
No other way to say it
Nobody does it better
Oh we got a different kind of love
We got a different kind of love

In their eyes I see yours
Don't know much but I'm sure
That I'm right where I need to be
In this life or the next I will find
You again and again
You're the one for me

You're the missing link in my chain
Even when it drives me insane
And I wouldn't have it any other way

I know we're gonna make it
As long as we're together
We got a different kind of love
You know we got a different kind of love
No other way to say it
Nobody does it better
Oh we got a different kind of love
We got a different kind of love

Ohhhhh ohhhh
We got a different kind of love
Ohhhhh ohhhh
We got a different kind of love

We got a different kind of love
