

LIFE

Conrad Sewell

You make this life worth living
You make it taste so sweet
You make this life worth living
Come live this life with me

You make this heart stop breaking
You make the days complete
You make this heart stop breaking
Come live this life with me

All the nights I'm waiting for someone like you
All the time I've wasted without someone like you
Tell me you've been waiting for someone like me
I'll give you all I have
Forever and ever and ever

You make my world keep spinning
You make my soul believe
You make my world keep spinning
Come live this life with me

All the nights I'm waiting for someone like you
All the time I've wasted without someone like you
Tell me you've been waiting for someone like me
I'll give you all I have
Forever and ever and ever

You make this life worth living
You make it taste so sweet
You make this life worth living
Come live this life with me
Come live this life with me
