

Make Me A Believer

Conrad Sewell

She said make me a believer
Girl that's what I'm gonna do
Gonna give this girl a fever
Show you all my finer moves

Cold as ice I can't stop shaking
All the hearts that I've been breaking before you
Said you would leave me for dead, but I woke up in your bed last night

All night long I can't stop thinking
Out all night
You got me searching for you
I'm playing games in my head and she's out dancing instead

Wait for me say you'll run away with me
Hold my hand and promise me
You'll never leave
No you'll never leave

She said make me a believer
Girl that's what I'm gonna do
Gonna give this girl a fever
Show you all my finer moves
She said make me a believer
Girl that's what I'm gonna do
Wanna be with you forever
Tell me what I gotta do

All my friend they say I'm crazy
Say I'm not the same guy lately
Not that you put me back on the right track
The right track

Wait for me say you'll run away with me
Hold my hand and promise me
You'll never leave
No you'll never leave

She said make me a believer
Girl that's what I'm gonna do
Wanna be with you forever
Show you all my finer moves
She said make me a believer
Girl that's what I'm gonna do
Lock it down and never leave ya
Show me what I gotta do

All my hearts out wasted
It's your love I'm chasing now
Cha cha chasing now

I walk through the fire for you
I am walking through fire for you
I am walking through the fire for you
I walk through the fire for you
I am walking through fire for you
I am walking through the fire for you

She said make me a believer
Girl that's what I'm gonna do
Wanna be with you forever
Show me what I gotta do
She said make me a believer
Girl that's what I'm gonna do
Wanna be with you forever
Show me what I gotta do
Show me what I gotta do

I walk through the fire for you
I am walking through fire for you...
