

Brighter Days

Conro

Brighter days
Are on the way
But I can't get past yesterday
Hard to get
My head on straight
Fighting thoughts just run away

My beating heart
Is only human
Just hit restart
Alone is just an illusion

I, have faced some struggles along the way
But I, know that I'm not alone today
We might fall when the sun comes up
But we'll keep trying to fill that cup
Cause I, know that we're better
When we're together
Cause I, know that we're better
When we're together

Feeling low
It's hard to know
Left from right when I'm all alone
Shooting stars
Have lost their glow
Close my eyes, don't let it show

My beating heart
Is only human
Just hit restart
Alone is just an illusion

I, have faced some struggles along the way
But I, know that I'm not alone today
We might fall when the sun comes up
But we'll keep trying to fill that cup
Cause I, know that we're better
When we're together
When we're together

We might fall when the sun comes up
But we'll keep trying to fill that cup
Cause I, know that we're better
When we're together
