

## Close

Conro

I feel out of place  
The roads aren't the same  
Like they were when you were the one driving  
My car, and now I just count the waves  
Of our yesterdays  
As I go on the 101 highway  
And it's taking me back to the start

We lost everything  
We lost everything  
But you'll always stay close to my heart  
We lost everything  
We lost everything  
But you'll always stay close to my home  
(We lost everything)  
But you'll always stay close to my heart  
You'll always stay close to my heart

You were the sun and the moon  
Spinning me around  
When I pushed, you pulled me closer  
So I wouldn't fall down  
And I just count the waves  
Of your warm embrace  
When you made it a little bit lighter  
When I was tumbling into the dark  
(In the dark  
Tumbling into the dark)

We lost everything  
(We lost everything)  
We lost everything  
But you'll always stay close to my home  
(We lost everything)  
We lost everything  
But you'll always stay close to my heart  
You'll always stay close to my heart  
You'll always stay close to my heart  
You'll always stay close to my heart  
(You'll always stay close to my heart)
