

Fighters

Conro

No more patience, when I'm feelin' low
On vacation, my mind wants to go
Overthinking, when I'm all alone
Out of focus, from all the unknown

Can you check for my vitals? Think I need revival
Broken down and fading, my heart keeps breaking

Caught up in the storm but we're the survivors
Lookin' out for love in a little bit of darkness
Hold each other up when we falling down
Never give it up because we are the fighters
Caught up in the storm but we're the survivors
Lookin' out for love in a little bit of darkness
Hold each other up when we falling down
Never give it up because we are the fighters (fighters)

Because we are the fighters (fighters)

Underwater, swinging my fists
Tension rising, want no part of it
Nice to meet ya, been called a misfit
No need to fake it, we all got some shit

Can you check for my vitals? Think I need revival (think I need revival)
Broken down and fading, my heart keeps breaking

Caught up in the storm but we're the survivors
Lookin' out for love in a little bit of darkness
Hold each other up when we falling down
Never give it up because we are the fighters
Caught up in the storm but we're the survivors
Lookin' out for love in a little bit of darkness
Hold each other up when we falling down
Never give it up because we are the fighters (fighters)

Caught up in the storm but we're the survivors
Lookin' out for love in a little bit of darkness
Hold each other up when we falling down
Never give it up because we are the fighters
