

## Just Like You

Conro

I've been waiting for somebody just like you  
Seeing all the colors no more shades of blue  
You picked me from nothing  
And now I'm feeling something  
I've been waiting for somebody just like you

I've been waiting  
I've been waiting  
I've been waiting just like

I've been waiting  
I've been waiting  
I've been waiting just like you

You haven't gotten any in awhile  
That's why you made some smiles  
Haven't had somebody take you out  
And show you worth your while  
Friday night you're staying in  
Wheres the fun and made some friends  
Work all day and cry all night  
I think you need somewhere to sin  
Shawty pullin' by a thread  
All these girls staring checkin' at you  
Every sight I've lost my breath  
Cause I never seen someone like you

I've been waiting for somebody just like you  
Seeing all the colors no more shades of blue  
You picked me from nothing  
And now I'm feeling something  
I've been waiting for somebody just like you

I've been waiting  
I've been waiting  
I've been waiting for somebody  
Just like you

I've been waiting  
I've been waiting  
I've been waiting for somebody  
Just like you

Just like you
