

# Lay Low

Conro

Early in the morning  
Right before the break of day  
Lying here beside you  
Trying to think of something to say  
You're gonna have to leave soon  
So I'll give you this heart of mine  
It means I'm gonna miss you  
Every time

'Cause I can't get used to letting you go  
When the tears roll down your face  
Let me tell you darling  
We're going to find a place

Where we can lay low  
Where we can get high  
Where we can run away, we can go today  
We can leave the world behind  
So honey, let's go  
Let's do what we lust  
And do all the things that we've been dreaming of

We can lay low-ow-ow-ow  
We can get high-igh-igh-igh  
We can lay low-ow-ow-ow  
We can get high-igh-igh-igh  
So honey, let's go-o-o-o  
Let's do what we lu-uh-uh  
Where we can run away, we can go today  
We can leave the world behind  
We can lay low  
We can lay low

So glad that you came back  
Years already passed us by  
But I know I can trust you  
Even when I can tell you're lying  
Time is getting heavy  
So the car is parked just outside  
Are you still coming with me  
Along for the ride?

'Cause I can't get used to letting you go  
When the tears roll down your face  
Let me tell you darling  
We're going to find a place

Where we can lay low  
Where we can get high  
Where we can run away, we can go today  
We can leave the world behind  
So honey, let's go  
Let's do what we lust  
Do all the things that we've been dreaming of

We can lay low-ow-ow-ow  
We can get high-igh-igh-igh

We can lay low-ow-ow-ow  
We can get high-igh-igh-igh  
So honey, let's go-o-o-o  
Let's do what we lu-uh-uh  
Where we can run away, we can go today  
We can leave the world behind  
We can lay low  
We can lay low  
We can lay low  
We can lay low

We can lay low, we can lay low  
We can get high, we can get high  
We can lay low, we can lay low  
We can get high, we can get high
