You got that style everybody likes  
We'll light it up, take a look at the sky  
'Cause we're feeling the vibe, feeling the vibe, feeling the vibe  
Under these midnight lights (under these midnight lights)

So what you say?

Saw them other guys that were posted up in your way  
They was coming at you, you really up in a rave  
Ay, baby girl look out to space  
It's special moments I'm saving them for today

Let me take your hand, baby girl you never know though  
In the night moving around and taking photos  
And I got a whip, baby it ain't no metro  
And we sounded like a combo

Baby take it in for the moment

Don't got time so we go zen  
Driving the whip like it's stolen  
Gotta look out, they patrolling  
Loving the way that we roaming

Yeah, give me a time and I can pick you up  
On my way to you got me lifted up  
Then I came around in my sister's truck  
Had me thinking, "oh girl was this enough?"
