

Out For The Night

Conro

Callin' my name
And I already feel the same
Lonely day
Need to get my head on straight

Ooh, I can feel it
Leave all that shit behind
Ooh, I can feel it now

Out for the night
We can worry in another life
Out for the night
Only focus in on us tonight
Four AM is callin'
Even though I'm falling down
Don't gotta stress around
Out for the night

Out for the night

Don't bring me down
Need to get lost in this town
Walk away
Need to leave that stress up there

Ooh, I can feel it
Leave all that shit behind
Ooh, I can feel it now

Out for the night
We can worry in another life
Out for the night
Only focus in on us tonight
Four AM is callin'
Even though I'm falling down
Don't gotta stress around
Out for the night

Out for the night
Out for the night

I don't give a... now
Findin' our way round
No, I don't give a... now
I don't give a... now
Findin' our way round
No, I don't give a... now

Out for the night
We can worry in another life
Out for the night
Only focus in on us tonight
Four AM is callin'
Even though I'm falling down
Don't gotta stress around
Out for the night
