

# Overdue

Conro

I see you at a party  
But you caught me starin'  
I'm sorry  
You're somthin' special  
Had to keep it level

Time goes by start to evolve  
Side by side we can take it all  
Wanna tell you but scared to call

This love is overdue  
These feels I have for you  
Ain't holdin' back the truth  
I'm certain me and you  
Will be forever two  
Ain't holdin' back the truth  
This love is overdue

This love is overdue  
These feels I have for you  
This love is overedue  
Ain't holdin' back the truth  
This love is overdue  
These feels I have for you  
This love is overedue

Now I see you daily  
Are you thinkin' about me, maybe  
This is something special  
Don't wanna keep it level

Time goes by start to evolve  
Side by side we can take it all  
Wanna tell you but scared to call

This love is overdue  
These feels I have for you  
Ain't holdin' back the truth  
I'm certain me and you  
Will be forever two  
Ain't holdin' back the truth  
This love is overdue

This love is overdue  
These feels I have for you  
This love is overedue  
Ain't holdin' back the truth  
This love is overdue  
These feels I have for you  
This love is overedue
