Conro

(Remedy for you)

Wake up
And we'll take it on today
We will leave this place, head straight for the milky way
Catch your breath
It never works to run away
So, I'm letting you know that we're going to be okay
(Remedy for you)

We all get high sometimes
And we fall down low
'Cause young hearts break before they mold

When you feel your heart beat faster
When you're spinning out of control
Just need to hear "my love come take it"
'Cause I can be the remedy for you

You, you
For you
You, you
For you
You, you
For you
Remedy for you

You, you
For you
You, you
For you
You, you
For you
'Cause I can be the remedy for you
