

# Take Me Away

Conro

Can somebody take my breath away  
Hold my tight lonely day  
I've been searching for something to ease my mind  
'Til you came along, never thought I'd find

Take me away in this moment  
When I'm here with you  
Been chasing this feeling  
Now, I feel brand-new  
Get on a plane  
Go wherever with you

Take me away in this moment  
When I'm here with you  
Been chasing this feeling  
Now, I feel brand-new  
Get on a plane  
Go wherever with you

Take me away  
Take me away

Somebody just took my breath away  
Take me away  
Hold my tight. It numbed my pain  
I was searching for something to ease my mind  
Didn't realise you're the one I'd find

Take me away in this moment  
When I'm here with you  
Been chasing this feeling  
Now, I feel brand-new  
Get on a plane  
Go wherever with you

Take me away in this moment  
When I'm here with you  
Been chasing this feeling  
Now, I feel brand-new  
Get on a plane  
Go wherever with you

Take me away  
Take me away

You're taking me  
Higher than I've ever been  
Take me away

You're taking me  
Higher than I've ever been  
Take me away

You're taking me  
Higher than I've ever been  
Take me away

You're taking me  
Higher than I've ever been
