Conro

I remember the highlights
Wine talks in the late nights
What we had was great
But somehow we needed change

When I saw you at a red light
Took some time to get my head on right
Thinkin' about our memories (memories)

I won't forget about me and you
We fell apart but I would never undo
What you wrote on my heart stays true
I'm gonna wear it like a tattoo
I won't forget about me and you
We fell apart but I would never undo
What you wrote on my heart stays true
I'm gonna wear it like a tattoo

I'm gonna wear it like a tattoo
I'm gonna wear it like a tattoo

Livin' in the spotlight
Smokin' up by the firelight
But our time was fading, now
Had to go our separate ways

When I saw you at a red light
Took some time to get my head on right
Thinkin' about our memories (memories)

I won't forget about me and you
We fell apart but I would never undo
What you wrote on my heart stays true
I'm gonna wear it like a tattoo
I won't forget about me and you
We fell apart but I would never undo
What you wrote on my heart stays true
I'm gonna wear it like a tattoo

Tattoo
I'm gonna wear it like a tattoo
I'm gonna wear it like a tattoo
I'm gonna wear it like a tattoo

I'm gonna wear it like a tattoo
I'm gonna wear it like a tattoo

I won't forget about me and you
We fell apart but I would never undo
What you wrote on my heart stays true
I'm gonna wear it like a tattoo
