

The Chase

Conro

Counting down another day
Make a wish and blow away
You go further than the milky way
In my mind, I'm trying hard to reawake

All these problems that have been gone
I've been knowin' are truly wrong
Searching for some higher ground
Just looking for something I can hold on to

Just looking for something I can hold on to

(Yeah)
(Come on)

I've got an angel on my side
And the devil on the other side
I'm trying hard but going nowhere
Like taking flight without no air

All these problems that have been gone
I've been knowin' are truly wrong
Searching for some higher ground
Just looking for something I can hold on to

Just looking for something I can hold on to

All these problems that have been gone
I've been knowin' are truly wrong
Searching for some higher ground
Just looking for something I can hold on to
