Conro

You're alone in the crowd
Like a ghost inside, sleepwalking in the darkness
When you're lost, I'm here
And I wake you up and hold you when your world shakes

If you're losing your way, feel like tumbling down
Slipping away, I will turn you around
Learning how to navigate the heart
And we're starting our fire and never look back
Taking our chance, bet I'm counting on luck
Learning how to navigate the heart

How we so, chasing gold
Me and you, you, unique, unique
How we so, anywhere we go
Me and you, you, unique, unique
Unique, unique
Unique, unique

Let the world be gone
Sail away with me forever, start tonight
Let the road lead on
Glorious, beautiful, magical

If you're losing your way, feel like tumbling down
Slipping away, I will turn you around
Learning how to navigate the heart
And we're starting off flying and never look back
Taking our chance, bet I'm counting on luck
Learning how to navigate the heart

How we so, chasing gold
Me and you, you, unique, unique
How we so, anywhere we go
Me and you, you, unique, unique
Unique, unique
How we so, chasing gold
Unique
How we so, chasing gold
Me and you, you, unique, unique
How we so, anywhere we go
Me and you, you, unique, unique
Unique
