

# Blood Stain

## Consequence

From the blood stain  
From the blood stain  
Going through the shit, that's a part of life (Come on)  
Growing through the shit, that's the part I like  
Told myself I could do it once I saw the light  
Told myself I could do it if my heart is right  
So may your vibes be positive and tests be negative  
And every time you win, it become repetitive  
And every instinct that you ever inherited  
Be what save you from a setup at the Sheraton  
call 85  
They put this nigga Ray behind bars for eighty-five  
I feel for that man, yeah, that shit must stink  
That's a reality check without Carlos, this demon that we got on the North side  
Who sold cocaine to be courtside  
Trust me, you ain't die in vain but we all knew the rules 'fore we got in the game, uh  
You a superstar in the hood (Uh-uh-uh)  
You a superstar in the hood (Let's go)  
You a superstar in the hood  
You a superstar in the hood  
It's two sides to every claim or a story  
For every Megan, there's a Lane for a Tory  
I learned from Shawn Corey and added some choreography  
Then did what Garnett did to the NBA lottery  
'Cause for every Jordan there's a Dominique  
Livin' off of tips like savin' for a promise ring  
But honestly, that's the gamble you take on  
The minute that you put all that Bape on  
  
That's why I'm up 'til I'm breakdown  
'Cause I was in the red like Jake from State Farm  
Yeah, I move from greasy to Greece  
Chef kiss followed by a "Magnifique"  
Big time, I'm like I got many beats  
Once I got in the game, yeah, the plan was to eat  
None of this was done in vain but we all knew the rules once we got in the game, uh  
You a superstar in the hood (Uh-uh-uh)  
You a superstar in the hood (Let's go)  
You a superstar in the hood  
You a superstar in the hood  
You a superstar in the hood (Uh-uh-uh)  
You a superstar in the hood (Let's go)  
You a superstar in the hood (Let's go)  
You a superstar in the hood  
(Ayy)  
Ooh, ooh (Let's go)  
From the blood stain  
From the blood stain (Come on)  
From the blood stain  
From the blood stain  
So may your vibes be positive and tests be negative  
And every time you win, it become repetitive  
From the blood stain (Let's go)  
From the blood stain
