

# Spaghetti (feat. Tony Williams)

Consequence

And the horns go  
And the horns go

There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)  
There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)

I can show you how to move in a room full of vultures  
Me and my crew, we wrote the rules of the culture  
Me and my team had broke the rules for the culture  
And that legacy continues for me through The Crownholder  
We back signing posters, the real is on the rise  
So the proper diagnosis, I'm the realest, who gon' ride?  
Baby I'm the coldest, I be killing every slide  
So her words like an ulcer, she got feelings on the side  
She went from an alpha, to "can't live without ya"  
Now I can't get her outta my house without a bouncer  
'Cause she a bad girl, and her friends bad too  
A neighbour ask about spaghetti, so we back with that too, uh

There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (Yeah, take me higher, uh)  
There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)

What's a lamb to a lion when he on his king shit?  
On my mans, keep the iron, yeah we on that queen shit  
When niggas in the nineties did ten thanks to Jake

(adsbygoogle = window.adsbygoogle || []).push({});  
Only to come home, to ten ninety Jake  
I wound up in the 'Chi, put my CD in taste  
Where the GD's got rakes  
Now TV's got Jakes  
So it's time to celebrate, make it rain with confetti  
Throw your hands up if your favorite is spaghetti

There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (Yeah, take me higher, uh)  
There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)

So before we go, to every friend, every foe  
This is 1-9-2, and one thing you should know, yo  
It's been nice doing business with you  
Nice doing business with you  
So yeah, take me higher, uh  
Take me higher, uh (I don't wanna be on my own)  
Take me higher, uh  
Take me higher, uh

There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (Yeah, take me higher, uh)  
There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)

There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher  
There's too much temptation and desire (What's gonna save me?)  
So be my strength and just take me higher (I don't-)
