

## Giving Over

## Consumed By Fire

I've had those days, I've seen those nights  
When you wish that you could just rewind  
I had a heavy heart but I laid it down  
There was bitterness but I'm better now

All the times I ran where was I running  
All the times I said I don't need no one  
All the times I was crying out  
You were reaching out  
Now I'm giving over

I've seen those nights  
When you wish that you could just rewind  
You can read all the pages  
Every word every line  
But when it sinks in it will change your life  
I had a heavy heart but I laid it down  
There was bitterness but I'm better now

All the times I ran where was I running  
All the times I said I don't need no one  
All the times I was crying out  
You were reaching out  
Now I'm giving over

I'm giving over  
Over  
I'm giving over

When I'm burning out and I can't go on  
When my trust is fading in everyone  
When I'm on my knees and I just keep praying  
I just keep praying  
I won't run  
And I won't run

All the times I ran where was I running  
All the times I said I don't need no one  
All the times I was crying out  
You were reaching out  
And now I'm giving over

And all the times I ran where was I running  
All the times I said I don't need no one  
I was crying out  
And you were reaching out  
And now I'm giving over

I'm giving over  
I'm giving over  
I'm giving over  
And now I'm giving over  
I'm giving over  
And now I'm giving over
