

## Hope Says

## Consumed By Fire

Woke up this morning, turned the TV on  
Same story playing all day long  
It's like static ringing in my ears  
They're pushing doubt and they're selling fear

It's hard to hear a still small voice  
When it's fighting just to break through the noise

Hope says it's getting better  
Hope says I'm gonna make it out  
He's still writing my story  
From glory to glory  
He's not finished with me yet  
Just keep standing strong  
Keep leaning on  
I won't second guess  
What hope says

I'll play it smart, I'm gonna guard my heart  
See the days for how they really are  
Hold peace through the urgency  
There's more to life  
Than what my eyes can see

It's hard to hear a still small voice  
When it's fighting just to break through the noise

Hope says it's getting better  
Hope says I'm gonna make it out  
He's still writing my story  
From glory to glory  
He's not finished with me yet  
Just keep standing strong  
Keep leaning on  
I won't second guess  
What hope says  
What hope says  
What hope says

Hope says when it's hard stay in it  
Even when it feels like you've hit your limit  
There's grace on grace  
To run your race  
So keep the faith and win it  
Hope says I'm gonna make it out  
Oh, I'm gonna make it out

Hope says it's getting better  
Hope says I'm gonna make it out  
He's still writing my story  
From glory to glory  
He's not finished with me yet  
Just keep standing strong  
Keep leaning on  
I won't second guess  
What hope says  
What hope says

What hope says
