

# Lean On Me

Consumed By Fire

Stretch out your arms  
It's time to lay down your arms  
And help each other  
All our sisters and brothers  
And when will we give up the fight  
It never was the fight to hurt each other  
All our sisters and brothers

When you don't have the words  
To explain the hurt  
You can lean on me

When the bullets start flying  
Lean on me  
When you're fighting for surviving  
Lean on me  
When you don't have a home  
You can lean on me

See they say they know  
But when have they ever known how  
To help each other  
All their sisters and brothers  
And when will we give up the fight  
It never was the fight to hurt each other  
All our sisters and brothers

When you don't have the words  
To explain the hurt  
You can lean on me

When the bullets start flying  
Lean on me  
When you're fighting for surviving  
Lean on me  
When you don't have a home  
You can lean on me

To my brothers, and for my sisters  
Here's my shoulder  
You can lean on me  
I won't stop trying  
Like I won't stop fighting  
Here's my shoulder  
You can lean on me

When the bullets start flying  
Lean on me  
When you're fighting for surviving  
Lean on me  
When you don't have a home  
You can lean on me  
When you're walking through the fire  
Lean on me  
When you're feet are getting tired  
Lean on me  
When you don't have a home

You can lean on me

To my brothers, and for my sisters  
Here's my shoulder  
You can lean on me
