

## Learning To Love

## Consumed By Fire

Love ain't always gonna look just like  
Just like you want it  
Sometimes I know it won't work out  
But you don't run from it  
If you're holding on and your joy is gone  
It's love that brings you back  
If you're holding on and your joy is gone  
It's love that brings you back

If you can take then you can give  
Learn how to love and you learn how to live  
It's never a waste of time or money  
To put your heart on the line for somebody  
Learning to love  
I'm still learning to love  
I said it's never a waste of time or money  
To put your heart on the line for somebody  
I'm learning to love

Anybody can break your heart  
But it takes someone to love it  
So let me hear you if you've been down  
And you came back from it  
If you're holding on and your joy is gone  
It's love that brings you back  
If you're holding on and your joy is gone  
It's love that brings you back

If you can take then you can give  
Learn how to love and you learn how to live  
It's never a waste of time or money  
To put your heart on the line for somebody  
I'm learning to love  
I'm still learning to love  
I said it's never a waste of time or money

To put your heart on the line for somebody  
I'm learning to love

So let me hear you if you been down  
And you came back  
Yeah, you came back  
So let me hear you if you been down  
And you came back from it  
So let me hear you if you been down  
And you came back  
Yeah, you came back  
So let me hear you if you been down  
And you came back from it  
If you can take then you can give  
If you can take then you can give  
If you can take then you can give  
Learning to love

If you can take then you can give  
Learn how to love and you learn how to live  
It's never a waste of time or money

To put your heart on the line for somebody  
If you can take then you can give  
Learn how to love and you learn how to live  
It's never a waste of time or money  
To put your heart on the line for somebody  
I'm learning to love  
Yeah, I'm learning to love  
I said it's never a waste of time or money  
To put your heart on the line for somebody  
I'm learning to love

So let me hear you if you been down  
And you came back  
Yeah, you came back  
So let me hear you if you been down  
And you came back from it
