## Consumed By Fire

Hands off the wheel, I don't wanna drive  
Come take this thing  
Please take Your time  
Come do a work on me  
Unveil Your mysteries

Foolish just like a child  
Dancing out of the fire  
Don't care who's watching me  
I'm full force for You

I just need more, more  
I need a little bit less of me  
And whole lot more of You  
I'm letting go, go  
Making room for what You do  
Cause there's a whole lot more of You  
I need more  
I just need more  
Oh, I just need more

Spirit come down  
And take me higher  
Wing my feet  
And make me lighter  
Give me an angel view  
I wanna see like You

Revival in my soul  
I wanna lose control  
My cup, fill it up  
I want an overflow

I just need more, more  
I need a little bit less of me  
And whole lot more of You  
I'm letting go, go  
Making room for what You do  
Cause there's a whole lot more of You  
I need more  
I just need more, more

I wanna dance like David  
Spirit overtake me  
More, more

I wanna dance like David  
Spirit overtake me  
More, more

I just need more, more  
I need a little bit less of me  
And whole lot more of You  
I'm letting go, go  
Making room for what You do  
Cause there's a whole lot more of You  
I need more

I just need more  
Oh, I just need more
