

Moving On

Consumed By Fire

It ain't always about what you want
It ain't always about all the stuff
You hit the road cause you got what 'chu wanted
You hit the road and I never saw it comin'
I never saw you comin'

Now we're movin' on
I guess we're movin' on
I remember the days when this was everything
Now we're holdin' on
We're barely holdin' on
Can we bring back the days when this was everything

All the yes and the no's
All the highs and the lows
All the empty promises
There's one everywhere you go
You hit the road cause you got what 'chu wanted
You hit the road and I never saw it coming
I never saw you comin'
Now we're moving on

I guess we're moving on
I remember the days when this was everything
Now we're holding on
We're barely holding on
Can we bring back the days when this was everything

I never wanted to go I never wanted to leave
I never wanted to run out on my dreams
I never wanted to go I never wanted to leave
I never wanted to run out on my dreams
But they're never as they seem
Yeah dreams
Are never as they seem

Now we're moving on
I guess we're moving on
I remember the days when this was everything
Now we're holding on
We're barely holding on
Can we bring back the days when this was everything
Now we're moving on
I guess we're moving on
I remember the days when this was everything
Now we're holding on
We're barely holding on
Can we bring back the days when this was everything
All the yes and the no's
All the highs and the lows
All the empty promises
There's one everywhere you go
You hit the road cause you got what 'chu wanted
You hit the road and I never saw it coming
I never saw it coming
Yeah

Do you remember when this was everything
