

## On My Shield

Converge

all of the wounded that need to be saved  
looked for a handout beyond the gates  
and i need to know if their blood was worth it  
as we live this inferno and burn down to the bone  
all of the arrows that plunge into prey  
are their promises of better days  
and i need to know if their blood was worth it  
as we live this inferno, because i would rather  
i would rather, die on my shield  
die on my shield  
all of the wounded that need to be saved  
looked for a handout beyond the gates  
and i need to know if their blood was worth it  
as we live this inferno and burn down to the bone  
all of the arrows that plunge into prey  
are their promises of better days  
and i need to know if their blood was worth it  
as we live this inferno, because i would rather  
die on my shield  
i would rather die on my shield  
die on my shield  
die on my shield  
love's war rages on  
love's war rages on  
love's war rages on  
love's war rages on  
all of our pain is worth it  
together we fall apart  
all of our pain is worth it  
together we fall apart  
together we fall apart  
together we fall apart  
together we fall apart  
together
