

# Scorpion's Sting

Converge

Come to me  
Stand in witness  
Come to me  
Stand in witness

Oh, to see you  
All the better  
In joy or pain  
I'll stay by your side

Come to me  
Hold on tight, baby  
Come to me  
We are destructing

Sing, destroy, to create  
We sing to love  
Then we break  
Who are...  
Who are we?  
Who are...  
Who are we?

Overcome, vanquished  
She is calling my name  
And I'm answering  
Baby, come  
Baby, come to me  
Take my hand  
The scorpion's sting

All the better  
Oh, to see you  
Big eyes

Calm the storm, inside  
'Cause I'll be right here by your side
