

# Monogram

Conway the Machine

Yeah

Niggas came a long way, man

Look, I had to sit down to talk about my festival with Hova  
His first question was, "Do you own it?" (You own that shit?)  
Smokin' monogram, drinkin' Spade, emery, rolled it  
Golden bottles ice cold, this part of my life is a bonus (Talk  
to 'em)

I got pictures with the homie I never posted  
Personal convos with him I never told it, like  
Please, God, I just wanna see you filthy rich  
And them words were ringin' louder in my head every since (I pr  
omise)

That yellowtail was hotel-level, next time we connect  
We hit a spot up that's real special  
In Paris rockin' drip, and the details is the real devil  
Still got the joint with the drum on it and shell catchers, yea  
h

And lately, I've been hardly gettin' rest  
Lookin' back at my life, though, it's hardly any regrets  
The raw we pitched on the steps, this water sit on my neck  
Now I got my feet up in my office, nigga, I'm blessed, yes

I wanna sell cocaine forever  
And ever, and ever (We gon' sell cocaine)

Are you not entertained, you bitch?  
Put some respect on my name, you bitch (Respect my name)  
I just wanna sell cocaine, you bitch  
She asked me what's my name, I'm rich  
And I don't care what yours is, that's not important  
'Cause even if you told me, I'ma forget by the morning  
Only thing on my mind is the connects sendin' more in  
If I down this box, then your money gon' pour in  
I was lurkin' in the shadows  
Watchin' these niggas drop they lil' albums or what have you  
That shit is laughable  
God don't make mistakes, I wrote it natural  
For niggas upstate still eatin' mackerel, all my verses is fact  
ual (Talk to 'em)  
DA can't wait to indict you and supermax you  
It's a drought on them bricks and them niggas can't wait to tax  
you  
Yo, bro, bring a bottle of Delly, a pack of Backs too  
Nigga play with us, we gon' turn him to a tattoo (Boom, boom, b  
oom, boom)

Yeah, you know?

I wanna sell cocaine forever  
And ever, and ever (We gon' sell cocaine)
