

A Fallen Star

Conway Twitty

A star fell from Heaven
Right into my arms
The brightest star I know I've never seen
Then I found out that it was
Only you and all your charms
You came into my life to fill a dream.

A fallen star, that's what you are
The twinkle in your eye came from the sky
You must have sailed from the Milky Way
A fallen star, that's what you are.

The heavens must be lonely now that you are mine,
I'm sure they'll miss a star as bright as you.
But the stars will send their blessings and brighter they will
shine,
For when they see the dream that's coming true.

A fallen star, that's what you are
That twinkle that's in your eye came from the sky
You must have sailed from the Milky Way
A fallen star, that's what you are...

(A fallen star)...
