

A' Huggin' And A' Kissin'

Conway Twitty

Didn't know what I was missin'
All those nights of a huggin' and a kissin'
Making love on a night in June
Looking at the stars around the silvery moon.

Next day the sun was shinin'
The whole world had a silver linin'
The moonlight so alone and blue,
No more nights making love without you.

Last night we did our hearts command
We went to see the preacher man
Now I know what I've been missin'
Too many nights without a huggin' and a kissin'.

All around town it's been told
Now you wear a band of gold
If that's the way it was meant to be,
Before you and you for me, aww.

Last night we did our hearts command
We went to see the preacher man
Now I know what I've been missin'
Too many nights without a huggin' and a kissin'.

All around town it's been told
Now you wear a band of gold
If that's the way it was meant to be,
Before you and you for me, oh.

I need your huggin' and kissin',
I gotta have your huggin' and kissin'.

Got to have your huggin' and kissin',
Oh baby, I need your (huggin' and kissin')...
