

Because You Love Me

Conway Twitty

Because you love me the stars do shine
Because you love me the world is mine
Because I love you you'll always be
My everything, my only love eternally.

Because you love me angels sing
Because you love me I have everything
Because you love me my life is complete
My darling star I know you are my destiny.

Because I love you the church bells ring
Because I love you I have everything
Because I love you I want you to be
My only love for evermore, eternally...
