

First Romance

Conway Twitty

(First romance ooh ooh ooh first romance ooh ooh ooh)

(First romance) first romance (first romance)
Two youngsters learning (first romance)
First romance (first romance) our lips were burning
(First romance) remember the dance
(First romance) we met face to face (first romance)
I sighed at the warmth of your shy embrace

(First romance) first romance (first romance)
We felt we were ready (first romance)
First romance (first romance) we'll always go steady
(First romance) it happened so fast (first romance)
No one could conceive (first romance)
That our love would last they wouldn't believe
That our first romance was our first and our last romance

The older people raised the roof
They stomped the floor they said we'd goofed
Too young to know the meaning of
But they can't put an age on love

(First romance) first romance (first romance)
They don't understand (first romance)
First romance (first romance) we've already planned
(First romance) no matter how young (first romance)
We both realize (first romance)
We want to be one for the rest of our lives

And our first romance was our first and our last romance
(First romance ooh ooh ooh first romance ooh ooh ooh)
First romance
