

# I Can't Help It If She Can't Stop Loving Me

Conway Twitty

She slips your wedding band off of her trembling hand  
While I wipe the teardrops off her face  
I'm not stealing her from you just doing what she wants me to  
And I can't help it if she can't stop loving me

I can't help it if she can't stop loving me  
I can't stop her if that's where she wants to be  
There must be something here she really needs  
And I can't help it if she can't stop loving me

Somehow she can't resist the warmth of my two lips  
And how I used to hold her when she was mine  
She's tried to close the door but keeps coming back for more  
And I can't help it if she can't stop loving me

I can't help it if she can't stop loving me  
I can't stop her if that's where she wants to be  
There must be something here she really needs
