

I Sure Hate To See Me Go

Conway Twitty

I sure hate to see me go

You took my picture off the wall threw my clothes out in the hall

I guess I should admit what I already know

You're making plans without me soon I'll be your used to be

And I sure hate to see me go

I hate to see what's left of me just walk away

But it seems what we had goin's gone away to stay

There'll be more more loneliness than love for me in this old town I know

I sure hate to see me go

I hate to see what's left of me just walk away

From shattered dreams of a perfect love just yesterday

But there's no need in standing by a fire that lost its final glow

I sure hate to see me go

I sure hate to see me go
