

In My Dreams

Conway Twitty

Never quite got over you
I wondered if you missed me too
I tried to call a time or two
You were never home
Tried to call again last night
Number's changed, but that's alright
You wouldn't see me anyway
But that's ok, I'll see you.

In my dreams
And they never let me down
The only way that I have left
Of having you around
In my dreams
And they've saved me up 'till now
But it's funny how a fool can see the light
When the sun goes down.

I never quite got through to you
Like all the others seem to do
Got kinda close a time or two
But not for very long
Ain't it funny how your memory makes
Love stronger than the heartaches
Makes me keep on loving you
The way I do when I see you.

In my dreams
And they never let me down
The only way that I have left
Of having you around
In my dreams
And they've saved me up 'till now
But it's funny how a fool can see the light
When the sun goes down
In my dreams...
