

It All Falls Down

Conway Twitty

Yes, it falls down
Everytime we build it up
It all falls down.

When we first fell in love the sun shined bright above
And everything we ever did was right
Love was all we ever knew clouds above were always blue
And all the time we never had a fight.

But time together made a change
The love we have is not the same
It seems that we keep goin' round and round.

We try so hard to build our love
And make it just the way it was
But everytime we build it up
It all falls down.

Yes, it falls down
Our love gets halfway to heaven then falls to the ground
Yes, it falls down.

It's so hard to make love strong
With one day right and two days wrong
And everytime we build it up
It all falls down.

Yes, it falls down
Everytime we build it up
It all falls down...
