

## I've Never Seen The Likes Of You

Conway Twitty

You walk in and I can hear the whispers  
As a hush fills the crowded room  
You stand there looking just like heaven  
Lord, I've never seen the likes of you.

From the doorway your eyes search every table  
As every man turns to look at you  
You're special and anyone can see it  
You know I've never seen the likes of you.

And then I catch your eye from across the room  
And you smile back at me, as I walk up to you.

And say, "Hello there.", and put my arms around you  
As I remember the day I married you  
And now three kids later, You're more beautiful than ever  
You know I've never seen the likes of you...
