Julie

Conway Twitty

Julie was the life of my soul
Came along and showed me all a woman has to show
She never made me promises about loving me always
She just made me happy while she stayed.

Time and changes changed her mind one day
She went to find her world in some strange city far away
Now i stand here lookin' through that Appalachian rain
Turning Julie over in my mind again.

All in all she sure was good for me
What i feel inside is more than just a memory
And if i had a guilt to give to any man i know
He'd have a girl like Julie.

Sleeping softly...in...his..soul...
