My Heart Cries

Conway Twitty

Well my heart cries cries for you baby
It just cries and cries and I don't mean maybe
Well my heart sinks whenever you're near
But it just dies when you're not here
You'll never know know know know know how my heart cries

Ah you seem to think that it's so funny
But I'm not laughin' not one bit honey
I must have cried a million times
I just can't get you off of my mind
You'll never know know know know know how my heart cries

A long long time we've been together
We thought that it would last forever
But something then went wrong
Because you left me all alone
You'll never know know know know know how my heart cries

Ah my heart cries it just cries and cries
Cries for you baby you'll never know
You'll never know know know
You'll never know you'll never know you'll never know
Ah my heart cries it just cries and cries
Cries for you baby you'll never know
