

# Night Fires

Conway Twitty

If you could spin on an cloud lookin' down at the ground  
When the moon is high and the sun is gone down  
You can see all the people in the cities and the towns building  
night fires

A man takes a mind in the middle of the night  
To take a woman in his arms and to hold her tight  
And he gets so high the flames start to fly

Night fires, flames are getting higher  
Night fires, burning with desire  
We're gonna make the whole world  
Shine a little brighter buildin' night fires

Night fires, flames are getting higher  
Night fires, burning with desire  
Don't it make the whole world shine a little brighter  
Buildin' night fires

If you leave love alone  
Though it's gonna get cold  
There ain't now fuel and the fire gets low  
So tonight you and I are gonna  
Shovel more coal on the night fire

Let's turn up the heat  
And turn down the lights  
Gonna build us a ragin' fire tonight  
And when love gets right  
Our souls ignite into night fires
