

# Not Enough Love to Go 'Round

Conway Twitty

You know I've always tried  
To never take love for granted  
As you know. 'Cause if you ever  
Said goodbye why, I just don't know  
What I'd ever do with out you. baby.

Well, all of the friends we know  
Are lettin' each other go, there own way  
Will they ever find love again  
Or will the whole world end up lonely?

Cause baby, just as sure as that old sun'll go down  
Somewhere tonight you'll hear a heart breakin' sound  
Maybe this'll be a lonely old town  
If there's not enough love to go 'round.

Sometimes it's just a little hard  
To keep a love like ours together.  
But I promise you one thing, girl  
No matter what, I'm gonna love you forever.

All up and down street  
Are people who really need each other  
And only a lucky few  
Learn how to hold onto each other.

Cause baby, just as sure as that old sun'll go down  
Somewhere tonight you'll hear a heart breakin' sound  
Maybe this'll be a lonely old town  
If there's not enough love to go 'round.

Maybe this'll be a lonely old town  
If there's not enough love to go 'round
