

She Did-It Did-I Didn't

Conway Twitty

And she did and it did and Lord knows
I didn't and I know I'll never again

She left me somewhere between it's over and the end
With more than an effort to destroy any man.
There'll never be another to share the love that live
'Cause her leaving left me no love to give

I knew if she left me it would surely destroy me
I'll never forget her for the love we had then
And she did and it did and Lord knows
I didn't and I know I'll never again.

I knew if she left me it would surely destroy me
I'll never forget her for the love we had then
And she did and it did and Lord knows
I didn't and I know I'll never again...
