

# She Loves Me

Conway Twitty

You've always been good to me  
And I know how hard you tried  
And maybe that should be enough  
To keep me satisfied.

But the lonely in a man  
Needs more than just a friend  
And that's when she came in  
And she loves me

I know you've walked an extra mile  
you could always find a smile  
That could hold me for a while  
But she loves me.

You're a good and faithful woman  
And I hope someday you'll find  
Someone who brings out in you  
The love I've been denied.

But as for me it's over  
I've finally found another  
And I'm sorry but I love her  
And she loves me.

I know you've walked an extra mile  
you could always find a smile  
That could hold me for a while  
But she loves me.

She loves me...
