

The Best Is yet to Come

Conway Twitty

I watched the shadow of her body on the wall
As she slowly moved across the room.
Anticipatin', Lord, I can't stand the waitin'
As I looked through the gown she slipped into.

I hear my heart beating out of time
As I feel her body move so close to mine
With just one touch my soul surrenders
And once again she takes control of me.

But the best is yet to come
Lord, she's only just begun
When we love she leaves nothing undone
It just gets better everytime
And the best is yet to come.

I feel her breathin' gently on my shoulder
Lying here in loves sweet after glow
But I still feel the fire
'Cause tonight she took me higher
Than she had ever takin' me before.

Ah, but I know the best is yet to come
Lord, she's only just begun
When we love she leaves nothing undone
It just gets better everytime
And the best is yet to come.

Yeah, the best is yet to come
Lord, she's only just begun
When we love she leaves nothing undone
It just gets better everytime
And the best is yet to come...
